

DEPENDENT CHILDREN COVERAGE TO AGE 26

The Trustees of NAPEBT have determined that the health plans offered through NAPEBT will comply with the new Health Reform regulations for covering dependent children to age 26 on the required regulation effective date (which for NAPEBT is July 1, 2011).

The new Health Reform regulations were released after the NAPEBT budget was established for 2010 - 2011 plan year and therefore the 2010-2011 health plan rates do not include the cost of adding dependents to age 26. We will provide information to you in the spring of 2011 and during the 2011 Open Enrollment period about the new definition of dependent child that will become effective on July 1, 2011 for our NAPEBT health plans.
